My Favorite Tokyo Disney Resort Attractions

Kairi Terada - 2nd Year English Club Member

I love Tokyo Disney Resort very much!

I want to go back there when I can. Here are a few of my favorite attractions!

Sinbad's

STORYBOOK VOYAGE

I often ride this for a long time. It's what I like best! It is a Tokyo Disney Sea original attraction. I love the song that plays in this one, "Compass of Your Heart." And the character Chandu who appears is very cute. I have a collection of his goods.

Soaring

FANTASTIC FLIGHT

It is a new attraction built in 2019. It can be found in Disney parks around the world, but with an original story added! We travel around the world in a **vehicle** called the Dream Flyer. This attraction also has an interesting background story!

Jasmine's

FLYING CARPETS

This attraction is located in the Arabian Coast. Riding on a magic carpet and flying through the air. Don't **underestimate** outdoor attractions. We can control the magic carpet. **Depending on** the operation we can enjoy the thrill.

The Country I Want To Visit

Riho Hidaka - 2nd Year English Club Member

Hello. I like to go to foreign countries.

I will write about the countries I have never been and want to go to.

When you go abroad, you can learn the local language, and of course, you can actually learn **different cultures**.

I am most interested in **Germany**:

I can learn German, which leads to **language acquisition**. Germany is also a country with a strong history of music. I like classical music, I deeply want to learn about it. Germany has a population of about 83.1 million.

Famous Spots: Here are two places I especially want to visit.

The first famous **tourist destination** is **Neuschwanstein Castle**. It is an old **brick** castle in nature. It seems that the beauty varies differently depending on the season. Winter is the most beautiful. This is the best tourist destination, so I would like to go there someday.

The second famous tourist destination is the **Romantic Road**. The Romantic Road is a tourist route from southern Germany to Wurzburg to Fessen. It's about the same distance as Tokyo to Osaka. I especially want to visit **Wurzburg** and **Rothenburg**. These two have very beautiful and house-like buildings lined up in different colors. I want to take pictures there.

Food:

In Germany, I think sausages are common. However, there are many other dishes as well. I will introduce one: *Maultaschen*. It's meat, onions, and **spinach** in pasta dough. It looks like a wonton of wonton soup. It looks so delicious. If I go to Germany, it's one of the foods I must eat.

Until now, I didn't know much about Germany, but now I can find sightseeing spots and food when I go someday.

I also want to learn German and speak with German people.
